

PARK CITY FENCING ACADEMY

CODE OF CONDUCT RULES

I, _____, understand that fencing at Park City Fencing Academy is a privilege not a right. I will be respectful towards my coach, my fellow fencers and the facility where I fence. I will abide the following rules of conduct.

I agree to follow the direction of Coach Elaine Aliberti at all times.

Fencers are to come directly to the Fencing Gym upon drop-off at the MARC. Fencers will not run around in the MARC facility if they are not a member of the facility. Membership in PCFA includes entry to the fencing class at the MARC but does not include the facility outside of class time.

NO FOOD or DRINK other than water is allowed in the gym.

Fencers are not allowed to harass other fencers at the club in any way, including stealing other fencer's possessions, hitting, or calling of names. Fencers will treat all members of the club and their families with respect at all times.

It's important to always walk to the end of the strip when unhooking from a strip. If the floor cord snaps back to the reel, this can damage the equipment and be very expensive to repair.

If someone asks you to fence them, you will always say yes unless you are injured or sick. If you need to take a break tell them you will fence them after a one bout break. If you have already agreed to fence someone else, let the fencer asking know they can be next in line to fence you.

Fencers will help with set up and take down of equipment. Before leaving everyone should do their part to help out the club.

Fencers must report any violation of these rules to the coach or adult in charge.

I agree to abide these rules and any breach will result in disciplinary action by the coach which may include suspension or expulsion from the club.
